ADDRESS CORRECTION REQUESTED **RUSH — TIME DATED**

(Newsbriefs continued)

A Tumor Registry Training Program for Personnel of Cancer Patient Data Systems will be held the weeks of August 16 and 23 in HSW 301. The objective of the program is to give an intensive overview of the operation of cancer patient data systems, with special emphasis on utilization of data to serve the cancer patient, clinician, researcher and administrator.

The program, which has been in operation for 20 years, is directed by Calvin Zippin, ScD, professor of Epidemiology, in the Cancer Research Insitute's General Tumor Registry.

In addition, a special short course on Epidemiology for Tumor Registrars, co-sponsored by the Department of Epidemiology and International Health, will be offered for the first time, Monday, August 30 to Thursday, September 2. The program will consist of lectures and workshops devoted to epidemiologic methods applicable for use in hospital-based and population-based cancer registries. For further information see the inside calendar or call x2331.

The Mission Mental Health Center is sponsoring a workshop for human service agencies and professionals on the current status of refugees in the Bay Area and on refugee camp life in El Salvador, on Friday, August 13 in Carr Auditorium, SFGH from 1 to 5 p.m.

The program will feature the recently produced documentary "Death Flight" which traces the tragic flight of the Salvadoran refugees from the war-torn battle zones of El Salvador.

Speakers at the workshop will include Angela Davis, professor, S. F. State University; Father Larry Dumphy, Franciscan priest; Nick Rizza, Amnesty International researcher; and Maria Velez, Chicano health worker.

For further information contact Bob Hernandez at 558-2564.

The School of Dentistry's twelfth annual Summer Orientation Program began on August 2 and will run for five weeks to September 3.

The program provides entering students with a glimpse of how different an undergraduate curriculum is compared to the demands of an eight-hour-day professional program.

For further information contact the Office of Student Affairs at x3151 or x2737.

The Reprographics Department production shop has moved from 2550 Judah Street to the Center for Educational Development (CED) at 15th and Folsom Streets. The extension 2781 remains the same. Administrative work remains at the AC-12 address, x1201.

In addition, the production shop of Addressing Services also has moved to CED. The extension 3165 remains the same. Administrative functions will remain at the AC-30 address, x3163.

This brings most of the communication production services together in one building. Publications and EMR have previously moved to this building.

The S. F. Regional Cancer Foundation is sponsoring a workshop on "Cancer and The Environment" on Saturday, September 25, in the French Hospital Ballroom, Sixth Avenue and Anza Street, from 8:30 a.m. to 1 p.m.

Co-sponsored by French Hospital Medical Center and the American Cancer Society, San Francisco unit, the program features Bruce Ames, PhD, professor, Biochemistry, UC-Berkeley as the keynote speaker. Pre-registration is required. For further information contact Ron Feldman, 673-7979, Cecilia Cotter, 221-2132, or Patricia Tanquary, 666-8885.

(SFGH continued)

TUESDAY 31

ORTHOPAEDIC SURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

PEDIATRIC GRAND ROUNDS: *Acute Liver Disease.* M. Michael Thaler, Ped. *Coagulopathy Management.* Marion Koerper, Ped. Carr Aud. 8:30 a.m.

MEDICINE GRAND ROUNDS. Carr Aud. 11:30 a.m.

NORTHERN CALIFORNIA OCCUPATIONAL HEALTH CENTER GRAND ROUNDS: *Asbestos Related Chest X-Ray Findings.* Leslie Preger, Radiol. Carr Aud. 5:15-6:30 p.m.

THURSDAY 2

NEUROLOGY-NEUROSURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCES: *Chest Injury.* Arthur Thomas, Surg. Rm. 4H40. 8:30 a.m.

DEADLINE

Deadline for the next issue of *Today & Tomorrow,* which will cover the period September 4-17, will be **Tues., August 24, 11 a.m.** Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., Rm. 300, x1541 or x2557.

Vol. 8 No. 15, Aug. 7-Sept. 3, 1982

TODAY & TOMORROW

AUG. 7-SEPT. 3, 1982

Moffitt 9 North South, the General Surgery Unit, has moved to the seventh floor of Long Hospital as of Monday, August 2. This is the first inpatient unit to move into the new hospital. The only way to get to this new location is to go to the seventh floor of Moffitt and proceed to the south end and turn left to the nursess station. The new elevators in Long Hospital cannot be used because connecting corridors on other floors are not completed as yet.

Future patient moves are scheduled for the early fall.

In addition, the Emergency Room is scheduled to move to its new location on Tuesday, August 24. In preparation for the move, the aisle leading from Admitting to the parking lot of LPPI will be closed to all foot traffic except for ambulance patients, gurneys and wheel chair traffic, starting Sunday, August 15. All other foot traffic will be routed to the new Physical Therapy location, to the outside perimeter of the Emergency Room to the lobby area. Several signs will be posted and escorts will help control the flow of foot traffic.

The new Emergency Room will have twice the space as the previous one including a bed capacity increase from 11 to 18 beds. In the next few months this area also will include a satellite X-Ray to help with patient care.

UCSF officials have presented a series of modifications under consideration to improve its draft 1982 Long Range Development Plan. The presentation was made at two public meetings held on July 29 to discuss the plan with campus and community residents, and dealt with revisions designed to be responsive to some concerns and desires expressed by campus and community people over the past two months.

At the same time Chancellor Krevans announced that the consultation and discussion planning process for the Long Range Development Plan—which is called "A Plan for the 80s"—would be extended another month in response to requests from community groups and individuals.

Two additional public meetings—the 7th and 8th—will be held on Wednesday, September 1, at noon in HSW 302 and at 7 p.m. in Toland Hall. Written copies of the draft LRDP and the supplementary material containing the responsive modifications will be available on August 15 at the Office of the Associate Vice Chancellor, 145 Irving Street, x2911, and also will be mailed to anyone who requests them.

In addition, in response to requests from the community, Krevans announced that the campus will extend the time from July 23 to August 23 in which written comments can be submitted to the same address on the Environmental Impact Report.

"The discussions and consultations we have had with campus and community residents have evoked some positive and constructive suggestions," Krevans declared, "which we feel improve the draft LRDP without changing its goals."

"This is still a draft," Krevans emphasized, "and the process of discussion will continue on through August. Associate Vice Chancellor Tom Rolinson and Tom Gwyn, director, Public Service Programs, are asking interested or concerned groups and individuals to invite them back to discuss the LRDP draft and the modifications even before the September 1 meetings, in order to gain maximum community and campus input."

PEDIATRIC TUMOR BOARD. M 372. 11 a.m.-12:15 p.m.

NEUROLOGY GRAND ROUNDS. S 664. 11 a.m.-12:05 p.m.

UCSF/MOUNT ZION GERIATRIC CONFERENCE: *Infectious Diseases in the Elderly.* Lawrence Drew, Microbio. & Infect. Dis., Mount Zion. Herbst Hall, Mount Zion. Noon.

EMPLOYEE HEALTH PROMOTION SERIES: *Aerobics & Total Fitness.* Pati Kuziomko, MU. Open to the campus community. C 213. Noon. Free.

NEURO-ONCOLOGY CONFERENCE. L 34. 12:30-2 p.m.

COMBINED HEMATOLOGY/ ONCOLOGY ROUNDS. M 1296. 1:30-2:30 p.m.

ORTHOPAEDIC SURGERY CLINICAL GRAND ROUNDS. A 630. 4 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 4 p.m.

PRIMARY CARE ROUNDS: *Hirsutism.* Molly Cooke, private physician. A 455. 4:30 p.m.

RADIOLOGY GRAND ROUNDS. HSW 303. 5-6 p.m.

27 FRIDAY

PULMONARY PHYSIOLOGY SEMINAR: *Airflow Rates During Quiet Breathing/Body Plethysmography.* Homer A. Boushey, Med. S 758. 8:10-9:30 a.m.

PEDIATRICS CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

COLE HALL CINEMA: *Robin Hood* (by Walt Disney). Children under 14 $1.25; UCSF students & MU members $1.75; general $2.25. Group rates available for first two shows. For further information call x2019. Cole Hall. 10 a.m., 1:30, 6:30 & 8:15 p.m.*

CONSULTATIVE TUMOR BOARD. M 372. 10:45 a.m.

CLINICAL NEUROLOGY CONFERENCE. A 884. 11 a.m.

HAND SURGERY CONFERENCE. Rm. 4H-40, SFGH. 7-8 a.m.

DERMATOLOGY GRAND ROUNDS: *Interesting Cases from UCSF.* Presented by UCSF Dermatology residents. Derm. Conf. Rm., Letterman. 8 a.m.

EPIDEMIOLOGY FOR TUMOR REGISTRARS: *Diet & Cancer.* Lawrence N. Kolonel, U Hawaii. 10 a.m. *Viruses & Cancer.* Donald F. Austin, Calif. State Dept. of Hlth. Serv. 10:50 a.m. *Radiation & Cancer.* Joseph L. Lyon, U Utah, Salt Lake City. 1:15 p.m. *Occupation & Cancer.* David B. Thomas, U Washington, Seattle. 2:05 p.m. *Epidemiologic Studies: How Do You Transfer the Knowledge?* Helene G. Brown, UCLA. 3:10 p.m. HSW 301. Sponsored by CRI & Epid. & Int. Hlth. For further information call x2331.

HOSPITALS AUXILIARY EXHIBIT. On display in Moffitt lobby for the month of September will be: photographs by Rec Levy and Alexis Pier, batik by Romey Weber, etchings by Lisa Maule and watercolors by Hilda Kidder. A portion of all proceeds benefits patients in UC Hospitals & Clinics. For further information or to purchase or reserve work, visit the Auxiliary office (next to the Moffitt cashier) 10 a.m.-2 p.m. or call x4906.

MEDICINE GRAND ROUNDS: *Topics & speakers to be announced.* Cole Hall. 10:30 a.m.-noon.

LRDP PUBLIC MEETINGS SEPT. 1

Public meetings to discuss the draft LRDP and the supplementary material containing modifications proposed in response to campus and community concerns and desires. HSW 302, noon; Toland Hall, 7 p.m.

BROWN BAG TOURS LECTURE SERIES: *Arthritis Update.* Ira M. Goldstein, Med. & Rosalind Russell Arthritis Research Lab., SFGH. For further information call x4394. HSW 303. Noon. Free.*

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

FACIAL PLASTIC SURGERY CONFERENCE. A 723. 5 p.m.

2 THURSDAY

PEDIATRIC GRAND ROUNDS. S 664. 8:30 a.m.

EPIDEMIOLOGY FOR TUMOR REGISTRARS: *Endogenous Hormones & Cancer.* Nicholas L. Petrakis, Epid. & Int. Hlth. 8:45 a.m. *ACS Cancer Prevention Study II.* Lawrence Garfinkel, ACS, N.Y. 1:30 p.m. HSW 301. Sponsored by CRI & Epid. & Int. Hlth. For further information call x2331.

THURSDAY 12

NEUROLOGY-NEUROSURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCES: *Total Parenteral Nutrition.* George Sheldon, Surg., SFGH. Rm. 4H40. 8:30 a.m.

FAMILY PRACTICE GRAND ROUNDS: *Bacterial Enteritis.* Mary Anne Johnson, Family Practice Inpatient Serv., SFGH. Carr Aud. 12:30-1:30 p.m.

TUESDAY 17

ORTHOPAEDIC SURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

PEDIATRIC GRAND ROUNDS: *Tips for Tending Tiny Tots.* Richard Bland, Ped. & CVRI. *Physiologic Factors Affecting Nutritional Needs of Low Birth Weight Infants.* Malcolm A. Holliday, Ped. & Child Renal Cntr. Carr Aud. 8:30 a.m.

MEDICINE GRAND ROUNDS: *Clinicopathological Conference.* Lawrence Tierney, Jr., Med. & Med. Serv., VAMC. Carr Aud. 11:30 a.m.

THURSDAY 19

NEUROLOGY-NEUROSURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCES: *Resuscitation & Shock.* Donald Trunkey, Surg., SFGH. Rm. 4H40. 8:30 a.m.

BASSTA CLINICAL CONFERENCE ON THE LATINO PATIENT: *Group Therapy with Latino Cancer Patients.* Ramon Garcia, Psychr., UCSF/SFGH. Rm. 7G19. 12:30-1:30 p.m.

TUESDAY 24

ORTHOPAEDIC SURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

PEDIATRIC GRAND ROUNDS: *Recurrent Pneumonia.* Herman W. Lipow, Ped. *Cystic Fibrosis.* I. Nathanson, Pulmon., U N.Y., Buffalo. Carr Aud. 8:30 a.m.

MEDICINE GRAND ROUNDS: *Pericarditis & Pericardial Tamponade.* Melvin Cheitlin, Med. Carr Aud. 11:30 a.m.

WEDNESDAY 25

UROLOGY GRAND ROUNDS. SFGH Cafeteria. 7:30 a.m.

THURSDAY 26

NEUROLOGY-NEUROSURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCES: *Forensic Medicine.* Boyd Stephens, City & County of SF. Rm. 4H40. 8:30 a.m.

FAMILY PRACTICE GRAND ROUNDS: *Gout in a Recently Immigrated Filipino Man.* Daniel Perez, Med. & Rhematol.; James Anderson, Anthro., UC-Berkeley. Carr Aud. 12:30 p.m.

PULMONARY PHYSIOLOGY SEMINAR: *Arterial Blood Gases.* John M. Luce, Med. S 758. 8:10-9:30 a.m.

PEDIATRICS CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

CONSULTATIVE TUMOR BOARD. M 372. 10:45 a.m.

CLINICAL NEUROLOGY CONFERENCE. A 884. 11 a.m.

&SFGH

TUESDAY 10

ORTHOPAEDIC SURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

PEDIATRIC GRAND ROUNDS: *Toxic Ingestions.* Theodore Tong, Poison Control Center, SFGH, and staff. Carr Aud. 8:30 a.m.

MEDICINE GRAND ROUNDS: *Mechanisms of Acute Lung Injury.* John Murray, Med. & Chest Div., SFGH. Car Aud. 11:30 a.m.

THURSDAY 12

NEUROLOGY-NEUROSURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCES: *Total Parenteral Nutrition.* George Sheldon, Surg., SFGH. Rm. 4H40. 8:30 a.m.

NEWS BRIEFS

(Continued from front page)

Because of the extension of time for discussion, the draft LRDP and the final Environmental Impact Report will be submitted to the Regents for approval at their October meeting.

The major changes from the 1976 plan to the 1982 draft LRDP contain proposals for: a new library building, to take the place of the grossly inadequate library now in use, to be constructed on the north side of Parnassus west of Millberry Union; and two to three small, low-rise, research modular buildings, stepping down the hill below Sutro Forest behind UC Hospital. These units would take the place of the 15-story research tower originally approved in the 1976 plan. Demolition of the old UC Hospital building after it is used as swing space in the transition stage and other measures to eliminate obsolete structures would maintain the total campus space at the 3.55 million gross square feet agreed to in 1976.

Other components of the 1982 plan include reconfiguration of interior campus space to provide more classroom and meeting space, improved animal care facilities, better east-west and vertical access routes and elevators, beautification of campus and environs and maintenance of Mount Sutro as a green belt.

The major improvements under consideration for the 1982 draft LRDP, made in response to community and campus concerns and desires, include:

1) establishment of a priority need for facilities on and off campus for recreation and other activities for staff well-being;

2) downsizing proposed parking on the west side of campus to 261 spots—on a surface lot—the same as are now accommodated on the west campus, in place of a 400-car parking structure on that site;

3) development with community input of a study of parking needs and possibilities to solve replacement parking needs;

4) moving four campus houses used for offices on Fourth Avenue around to Kirkham Street, and renovating these and two already on Kirkham Street for faculty and student residential use;

5) campus-owned houses on Third and Fifth Avenues, now used for offices, also to be rehabilitated and returned to residential use by June 30, 1989;

6) confirmation of a full environmental assessment for each structure at the time it is funded and presented for approval.

While not part of its Long Range Development Plan, the campus has been exploring the possible acquisition and funding of the Polytechnic High School site for development of junior faculty and student family housing. One component of that could be a joint campus-community recreation center, Krevans declared, but emphasized that the only use UCSF would make of the site is for housing. So far there are no funds available for this enterprise.

Two new endowed chairs have been established. Chancellor Krevans announced a Jack and DeLoris Lange Chair in Physiology has been established with funds donated to the University by the two founders of Lange Medical Publications. Lange has been associated with the University since 1943, when he completed his medical training here. He joined the clinical faculty in 1946 and is now emeritus clinical professor of Medicine.

The Regents also approved the establishment and naming of the David A. Wood Chair of Tumor Biology and Cancer Research. The chair is presently funded with more than $528,000 in contributions toward a $1 million pledge.

Wood, director emeritus, Cancer Research Institute and professor emeritus, Pathology, served as the first director of the Institute in 1951. He has served as a consultant to the National Cancer Institute for some 20 years, and to the Department of Defense and the California State Department of Health Services.

The Morris Stulsaft Foundation has contributed $125,000 to UCSF toward the cost of constructing and equipping the Intensive Care Unit on the Pediatric Service. The funds will be used to upgrade and expand existing facilities in order to help relieve serious overcrowding.

To date, some $10.25 million in gifts have been received for the Moffitt/Long Modernization Project, largely from grateful patients, UCSF faculty and alumni, and local foundations and corporations.

Tickets are still available for the special showing of the New York sell-out hit, "Lena Horne — The Lady and Her Music," to be held Sunday evening, September 12 at the Golden Gate Theater to benefit the Rosalind Russell Medical Research Center for Arthritis at UCSF.

Ann Miller (Mrs. Richard K.) and actress Mary Martin are co-chairs of a 175-member committee that has been formed to coordinate the benefit.

Tax-deductible tickets for the benefit are: $250 for preferred seats and a post-theater supper at the Fairmont Hotel with sponsors and stars. For the performance only there are: $150 choice seats, $100 excellent seats, and $50 good seats. There also are balcony seats at $20.

For ticket information contact Compass Associates at 929-1417.

An estimated 1500 children of migrant farmworkers in the Dixon and Woodland (Yolo County) area are receiving dental care this summer through the UCSF School of Dentistry Mobile Clinic. The clinic, which has been in existence for 14 summers, is a remodeled bus containing a complete four-chair dental clinic with portable x-ray and processing units. The clinic provides free dental care to children, many of whom would not receive it otherwise.

Funded by the state's Migrant Education Program, the mobile clinic is staffed by UCSF dental students and faculty, who provide screening, complete care and preventive dentistry instruction. Since the 1968 creation of the clinic program by Marvin M. Stark, DDS, professor of Operative Dentistry and Oral Biology, an estimated 25,000 children of migrant farmworkers from across the state have been treated.

The mobile clinic in the Dixon-Woodland area will be in operation until August 6. Thirty UCSF dental students are each spending two weeks at the site with nine faculty members, most of whom are UCSF graduates who took part in the program while students.

This year the program has added a new component enabling a more multidisciplinary approach to care and prevention. In cooperation with the Davis region Area Health Education Center (AHEC), the mobile clinic program includes volunteers and students from the UC-Davis campus.

A "Resource Guide to Geriatrics and Gerontology" has been developed by the School of Medicine in recognition of the growing involvement of the UCSF faculty in the field of aging and the importance of geriatrics and gerontology in the curriculum.

The guide, coordinated by Lawrence Z. Feigenbaum, MD, associate dean, School of Medicine, and Carol L. Allen, MA, coordinator, Interinstitutional Geriatrics, is designed to consolidate all aging-related information about UCSF curriculum, research, and other activities for the use of students, faculty, staff and the professional community.

For information on how to obtain a copy of the resource guide, medical students should contact the School of Medicine Curricular Affairs Office, x2346; School of Nursing, Arlis Willis, x4434; School of Pharmacy, Ron Finley, x3955; School of Dentistry, Sidney Epstein, x5802; and Aging and Health Policy Center, Carroll Estes, x3236.

Elected to the Academic Senate Committee on Committees commencing September 1 for a three-year term, are: David J. Ramsay, Physiology; John C. Craig, Chemistry and Pharmaceutical Chemistry; and Troy E. Daniels, Oral Medicine and Hospital Dentistry. Other members include: Leslie Z. Benet, Pharmacy; M. Margaret Clark, Anthropology; Robert A. Fishman, Neurology; Moses Grossman, Pediatrics; Virginia L. Olesen, School of Nursing; and Abraham Rudolph, Obstetrics/Gynecology.

Thomas R. Russell, MD, assistant clinical professor of Surgery, has assumed the presidency of the UCSF Clinical Faculty Association, the organized unit of the UCSF volunteer faculty, which represents the clinical faculty within the UCSF governing structure. He replaces Donald Palatucci, MD, associate clinical professor of Neurology. As president of the association, Russell will represent this group on the Executive Medical Board of UC Hospitals and Clinics, and is a member of the search committee for the key position of Academic Vice Chancellor.

A new program combining medicine and high tech cell analysis in modern health care has been established jointly by Lawrence Livermore National Laboratory (LLNL) and UCSF.

Drawing on the particular strengths of the two UC centers, the program will apply sophisticated new techniques of cell analysis to a multitude of problems in medical science.

Called the Program for Analytical Cytology, it will bring together staff from UCSF and LLNL in joint appointments, collaborative research projects and educational programs.

In addition, a new Laboratory for Cell Analysis will be constructed in space owned by UCSF at the Center for Educational Development on Folsom Street, where researchers will be able to apply the technologies developed by the Livermore scientists.

The program has been created to bridge the gap in the application of medical research. Livermore researchers develop advanced biomedical techniques and equipment, but lack clinical facilities. UCSF physicians have less experience in analytical cytology and high tech development.

The work in cell analysis at Livermore is centered in the Biomedical Sciences Division headed by Mortimer L. Mendelsohn, MD, PhD, associate director for Biomedical and Environmental Research; at UCSF the new Laboratory for Cell Analysis will be under the Department of Laboratory Medicine, Laurence J. Marton, MD, chair.

The joint program is being coordinated by director Brian H. Mayall, MD, a senior staff scientist at LLNL and professor of Laboratory Medicine at UCSF.

Vice chair for the 1982/83 academic year for the Department of Medicine are: Howard F. Morrelli, MD, professor, Medicine and chief, Pharmacology, VAMC-Fresno; Merle A. Sande, MD, professor, Medicine, SFGH; Marvin H. Sleisenger, MD, professor, Medicine and chief, Medical Services, VAMC-S. F. ; and Kenneth A. Woeber, MD, professor and chief, Medicine, Mount Zion Medical Center.

Mrs. Francis A. Sooy and William Coblentz, head of the UCSF Board of Overseers, are the co-chairs of the September membership drive for the newly formed Friends of the UCSF Child Care/Study Center.

The new group, which has 25 board members, helps raise funds for the center, which is also supported by parents' fees and student registration fees.

HONORS & AWARDS

Charles B. Wilson, professor & chair, Neurosurgery; research associate, Cancer Research Institute: To deliver the Herbert Olivecrona Lecture at the Karolinska Institute, Sweden, Sept. 1.

Melvin M. Grumbach, professor & chair, Pediatrics: Appointed to the Lita Annenberg Hazen Awards Committee for Excellence in Clinical Research, Mt. Sinai School of Medicine, N.Y. ; scientific advisory board, University of Michigan Center for Human Growth & Development.

Girish N. Vyas, professor, Laboratory Medicine: Invited to present a plenary lecture at the International Hematology & Transfusion Congress in Budapest, Aug. 1-7.

Mardi J. Horowitz, professor, Psychiatry; director, Center for the Study of Neuroses, LPPI: Invited lecturer, World Health Organization & U. S. Public Health Service Alcohol, Drug Abuse & Mental Health Administration Conference on Anxiety Disorders, May 5 & 6.

Reynold F. Brown, clinical professor, Radiology; administrator, Environmental Health & Safety: FDA Commissioner Hayes' award of special citation for distinguished service to medical radiological health practices & education.

Meryl Glass, Child Care/Study Center coordinator; assistant clinical professor, School of Nursing: Appointed by Mayor Feinstein to the Mayor's Council for Childcare.

Barry Gumbiner, graduate student, Neurosciences Program; **Paul Uhlig,** postdoctoral research fellow, CVRI: First and second place winners respectively of the Mary Morrow Prize for Excellence in Scientific Writing, sponsored by the Department of Medicine and CVRI.

Robert A. Fishman, professor & chair, Neurology: Elected to membership in the American Association of Physicians.

Paul A. Ebert, professor & chair, Surgery: President-elect, American College of Cardiology.

C. H. Li, director, Hormone Research Laboratory: Honorary degree of doctor of science, Medical College of Pennsylvania.

Robert W. Mahley, professor, Pathology & Medicine; director, Gladstone Foundation Laboratories for Cardiovascular Disease, SFGH: Editorial board, *Journal of Clinical Investigation.*

Howard L. Fields, associate professor, Neurology & Physiology: Elected to membership in the American Society of Clinical Investigation.

Stephen J. Mathes, associate professor, Surgery & Plastic Reconstructive Surgery: James Barrett Brown Award from the American Association of Plastic Surgeons for the advancement of knowledge in the field of plastic & reconstructive surgery.

Robert Staples, associate professor, School of Nursing, Social & Behavioral Sciences: First recipient of the Outstanding Achievement Award, Ethnic Minorities Section, National Council on Family Relations.

Bruce H. Brundage, associate professor, Medicine & Radiology: President, Contra Costa Chapter, American Heart Association.

Lisa M. Dunkel, librarian, LPPI: 1982 Murray Gottlieb History of Medicine Prize for her paper, *Moral and Humane: Patients Libraries in Early Nineteenth-Century American Mental Hospitals.*

APPOINTMENTS

Ivan F. Diamond, professor, Neurology & Pediatrics: Appointed vice chair, Department of Neurology responsible for the research and academic programs at SFGH.

Mardie Petrakis, associate director, Office of Extramural Support: Appointed Contracts & Grants Officer.

Harry Cordon, director, Internal Audit, UCLA: Appointed director, Internal Audit.

Franklin T. Hoaglund, professor, Orthopaedic Surgery: Appointed director, Orthopaedic Faculty Practice replacing Donald Lucas.

Douglas S. Goodin, resident, Neurology: Appointed instructor, Neurology. He will take major responsibilities for the outpatient teaching program.

Robert D. Gibson, associate dean, School of Pharmacy Student Affairs: Appointed academic assistant, UC-Systemwide Office of the Vice President, Academic & Staff Personnel Relations to August 31.

David A. Greenberg, resident, Neurology: Appointed assistant professor, Neurology and is based at SFGH where he will develop a neuropharmacology research program.

IN MEMORIAM

Gertrude Millberry, retired schoolteacher and wife of Guy S. Millberry, dean of the School of Dentistry, 1914 to 1926 and 1927 to 1939.
